

REPUBLICAN PARTY OF NEW MEXICO PLATFORM

Preamble

New Mexico is a land rich in diverse cultures, deep-rooted traditions, hard work, strong families, faith, and a fierce spirit of independence. Across our communities, urban and rural, tribal and frontier—our people share a belief in dignity, opportunity, and responsibility. New Mexicans deserve a government that serves the people, not special interests, criminals, or distant bureaucracies. The Republican Party of New Mexico stands united in its mission to restore common sense, protect God-given freedoms, respect differences, and put New Mexicans First—always. We believe individual freedom is inseparable from personal responsibility, faith, family, and community. We affirm that the family is the cornerstone of society, and that law-abiding New Mexicans must always come before criminals. Our mission is to defend constitutional government, promote economic freedom, ensure public safety, and preserve the American Dream for future generations. Guided by these principles, the Republican Party of New Mexico commits itself to restoring common sense governance and putting New Mexicans First.

Life, Faith, and Family

We believe that life is a gift from the Creator and that as such it is sacred. We believe in protecting life, and quality of life, from conception until natural death. We support pregnancy centers that both educate and care for mothers in distress. We support adoption-friendly legislation and believe that a careful audit of CYFD and our foster care system is needed to protect the most vulnerable among us. We support the traditional family and believe that when the family unit is strong our communities are strong.

Law and Order: New Mexicans Over Criminals

Public safety is a fundamental responsibility of government. We support strong, professional law enforcement and fair enforcement of the law. The rights of law-abiding citizens must take precedence over the privileges of criminals. We oppose catch-and-release policies, no-bond practices for violent offenders, and prosecutorial policies that undermine justice. We support bail and sentencing reforms that prioritize victims' rights and community safety, and we oppose drug cartels, gang activity, human trafficking, and policies that enable repeat offenders.

Border Security and Immigration

We support the enforcement of all immigration laws and the protection of state and national sovereignty. We welcome legal immigrants who follow the law, respect our culture, and seek to become productive members of society. We oppose open-border policies that endanger public safety and strain state resources. We support cooperation between local, state, and federal authorities to secure the border and combat criminal activity.

Constitutional Government

The Republican Party of New Mexico supports and defends the Constitution of the United States and the Constitution of the State of New Mexico. We affirm that rights are God-given and shall not be infringed by government. We support limited government, separation of powers, and federalism, and we oppose the weaponization of government against citizens based on political belief or lawful expression.

Election Integrity

We support the right of every eligible citizen to vote and the integrity of each lawful ballot. We oppose voting by non-citizens in any election. We support voter identification, proof of citizenship, secure paper ballots, transparent counting, and accountable election administration to ensure confidence in our elections.

Second Amendment

We support the individual right to keep and bear arms as guaranteed by the Second Amendment. We oppose laws that infringe upon the rights of law-abiding gun owners and affirm the right of citizens to defend themselves, their families, and their property.

Economic Freedom

We support free-market principles, private property rights, and entrepreneurship. We oppose excessive taxation and regulatory policies that hinder job creation and economic growth. We support policies that encourage work, reward personal responsibility, and reduce dependence on government.

Energy and Natural Resources

We support the responsible development of New Mexico's natural resources. We oppose federal and state policies that unnecessarily restrict energy production and harm working families. We support American energy independence and affordable, reliable energy.

Education and Parental Rights

We affirm that parents have the primary right and responsibility to direct the education of their children. We support local control, accountability, and high academic standards. We support school choice, including charter schools, homeschooling, and alternative education models, and we oppose political and ideological indoctrination in schools.

Healthcare

We support patient-centered healthcare decisions made between individuals and their doctors. We oppose government-controlled healthcare systems and support market-based solutions that increase access, affordability, and quality of care. We support protecting healthcare access for seniors.

State Sovereignty and Heritage

We support the rights of New Mexico under the Tenth Amendment and oppose federal overreach that undermines local communities, agriculture, energy, and small businesses. We honor New Mexico's history, traditions, rural communities, veterans, and working families.

Conclusion

The Republican Party of New Mexico stands for faith, family, freedom, responsibility, and the rule of law. We are committed to protecting life at conception, enforcing the laws of this state and nation, securing our borders, preserving constitutional government, and ensuring opportunities for all who work hard and follow the law. No plank herein shall be construed to infringe upon the rights guaranteed by the Constitution of the United States or the Constitution of the State of New Mexico, nor to diminish the authority of the people of New Mexico to govern themselves through lawful and constitutional means. Together, we will restore trust in government, defend our values, and put NEW MEXICANS FIRST.
